

K-Love is very important to me and my family. We have our home radios and all four of our vehicle radios tuned to K-LOVE. It serves as an inspiration and encouragement to all 4 members of my family throughout the days and nights of our lives. I hate to think of the impact on our community removing K-LOVE would have on many, many lives. I hear this station being played in more and more vehicles every day. Keeping K-LOVE on is in the best public interest as it provides encouraging and Biblical programming no matter the denomination of the listener. It is an alternative to the negative radio stations that infiltrate the airwaves and people need to have that choice.
